

efalia ecm

Requirements

Windows Server OS

All current Microsoft Windows Server operating systems for on premise systems are supported.

For detailed Microsoft Product and Services Lifecycle information also see:
https://learn.microsoft.com/en-us/lifecycle/products/

Server Hardware Requirements

Please check the hardware requirements for the respective Windows Server operating system.

Important:
Hard disk requirements do not include space for storage of document images.
NAS and SAN can also be used as storage locations for Efalia ECM data and databases.
The prerequisite for this is an appropriate configuration of the access rights for the Efalia ECM Server account.

Application Requirements

- Microsoft .NET Framework version 4.8
- Internet Information Service (IIS)
- Efalia ECM OfficeLink supports Microsoft Office versions 2007 or higher
- All popular Browsers. Microsoft Edge or later is recommended
  (Only required for use of WebServer and WebClient)
- An active internet connection for an easy activation of the Efalia ECM product license
  (Offline activation of the Efalia ECM product license through a client connected to the internet is also provided)

Supported Databases

- All current Microsoft SQL database servers for on premise systems are supported.
- All current Oracle database servers for on premise systems are supported.

efalia ecm

Requirements

Windows Client OS

All current Microsoft Windows client operating systems for on premise systems are supported.

For detailed Microsoft Product and Services Lifecycle information also see:
https://learn.microsoft.com/en-us/lifecycle/products/

Client Hardware Requirements

Please check the hardware requirements for the respective Windows client operating system.

Important:
Hard disk requirements do not include space for temporarily storage of document images in local cache of Efalia ECM Clients.

Application Requirements

- Microsoft .NET Framework version 4.8
- Efalia ECM OfficeLink supports Microsoft Office versions 2007 or higher
- All popular Browsers. Microsoft Edge or later is recommended
  (Only required for use of WebServer and WebClient)
- An active server connection for an easy document upload and retrieval
