SAP

Print Lists

Share Information Reasonable

Print lists are the result of a report run in your SAP system.
These can be cumulative audit trails, batch where-used lists, object service specifications, balance sheet valuations and cost center reports.
This is exactly, where Efalia ECM helps you.
Provide simultaneous access from different workplaces, combined with index-based and full text search* via SAP GUI or Efalia ECM WinClient/WebServer, using Efalia ECM OCR.
The information you need can be stored conveniently in Efalia ECM index fields.

*Full text features require the optional module Efalia ECM OCR Server.

Environment and Costs

Reduce voluminous paper output which has only a limited availability and furthermore simultaneously improve the environmental balance for your company.
The print data streams can be converted into PDF file format.

Advantageous Reduction

Reduce voluminous paper output which has only a limited availability and furthermore simultaneously improve the environmental balance for your company.
