Features and Changes 3.7.0.0

FileDirector 3.7.0.0 requires the Microsoft .NET Framework 4.5.
Microsoft Windows XP and Microsoft Windows Server 2003 are no longer supported.

A combination of FileDirector WinClient 3.0.0 / 3.1.0 / 3.2.0 / 3.5.0 / 3.6.0 and FileDirector Server 3.7.0 is still supported.

Type	Module	Description
Feature	ACC	Multiuser feature added to the AutoCapture Client.
Change	EM	The FormDesigner was reworked to improve the handling and the option to mark more than one control was added. Now, the marked controls can be deleted, moved or copied at once and multiple file attachments can be added to Forms.
Feature	EM/Server	New user rights structure implemented to grant users full access on cabinets but without being a member of the FileDirector administrators group.
Feature	EM/Server	The 'Users and Groups' security settings in Enterprise Manager got a new tab where Email notifications for 'Account activated', 'Password lost' and Password changed' can be configured.
Change	WebServer	The icons and graphics of the WebServer were updated.
Feature	WebServer	Support of annotations, 'Finger' signatures and stamps added to PDF documents.
Feature	WinC	A new search history in the task panel was added to the WinClient. Values which were used for searching can be saved and used in a new search.
Feature	WinC	The Check-Out UNDO option was added to the context menu.
Feature	WinC	Hitlists can be grouped by columns. The grouping will be saved per user and is available after a restart of the WinClient.
Feature	WinC	New documents can now be created on the "Edit" tab, additionally to the option provided in the "Scan" tab.
Feature	ACC/WinC/ Retrieval	AutoCapture Client, WinClient and Retrieval got 2 new icon sets in layout style 3 which contain a black flat icon set and a coloured flat icon set.
Change	WinC/Retrieval	Display buttons were moved to the bottom of the display window.

Change	WinC/Retrieval	In default, WinClient and Retrieval now start using “Office 2013” theme and coloured flat icon set when no skin is selected.
Feature	Mobile	Introducing the new FileDirector MobileForms app for Android and iOS: With the new FileDirector MobileForms app capturing of form related information can easily be done in online and offline mode. ‘Finger’ signatures and drawing on images are supported.
Change	All	A new PDF viewer was implemented into FileDirector to improve handling, displaying, annotating and working with PDF files and documents.
Change	All	Product and company logos changed to adapt the new design.
